Redefining In-House Diagnostic Testing

The VetScan VS2 is a state-of-the-art chemistry, electrolyte, immunoassay and blood gas analyzer that delivers uncompromising accuracy from just two drops of whole blood, serum or plasma. The VetScan VS2 is amazingly simple and intuitive, featuring an advanced user interface, expanded printing capabilities and precision reference laboratory quality results in 12 minutes; making it ideal for veterinary clinics, mobile practitioners, research laboratories, pharmaceutical and biotech companies.

Features

- Chemistry, electrolyte, immunoassay and blood gas with one simple instrument
- Accuracy comparable to reference laboratories
- Speed: 12 minutes to results
- Intelligent Quality Control (iQC)
- Sample integrity alerts
- 100 µL sample size—whole blood, serum or plasma
- Cost-effective
- Portable, space saving design
- Set and archive reference ranges
- Stores 5,000 patient records
- Connectivity

Benefits

- Save time, counter space and money while improving in-house testing with the availability of Total T₄, Bile Acids, tCO₂, and Canine Heartworm
- Offers peace of mind to diagnose and treat patients appropriately
- Obtain results, diagnose, discuss with clients and begin treatment within one visit
- iQC monitors the analyzer, rotor and sample before and during every analysis to ensure reliable results
- Monitors interference to ensure accurate results and reports levels of HEM, LIP and ICT to provide useful information on patients and sample handling
- Test a full chemistry profile using only two drops of sample from multiple species—vital in smaller patients
- Reduce your costs and save time:
 - Maintenance-free
 - No sample preparation—test whole blood
- The 11-pound analyzer has the ability to fit in one square foot of space and can be used anywhere and anytime
- Enter pre-labeled or unique species reference intervals as well as archive ranges for later use
- Provides peace of mind that results are secure and allows recall of patient history
- Connect with Practice Management Software, other VetScan Analyzers, external printers or a keyboard using the four USB ports

Simple Operation With Results You Can Count On

1 Insert sample.

2 Insert rotor.

3 Read results.
