Used by millions worldwide...*

STRAWBERRY LASER

Leading with innovation for over a decade

Strawberry Lift

Innovation at its best. The NEW Non invasive fat reduction treatment with skin tightening and facial contouring for the neck and chin.

Strawberry Lift is a painless non-invasive treatment achieving the results of a lower facelift, specifically designed to improve cheek definition, lift and tighten the neck and facial jowls, whilst tighten up the jawline. This non-surgical, patented technology, gives instant long lasting results.

The pain free technology works to reduce unwanted fat, whilst stimulating new collagen and tighten the skin with incredible long-lasting results.

The perfect treatment for men and women of all ages...

- Double chin reduction
- Neck lifting
- Facial jowls
- Improved jawline definition
- Cheek contouring
- Skin tightening

Strawberry Inch Loss

Laser Lipo Ltd designed and launched the 1st Strawberry inch loss system in 2009. Since then this amazing successful device has been upgraded with the addition of WIFI connectivity. This makes it possible to remotely manage the device. The owner of the machine can view the treatment type, treatment time and has the ability to turn off the device. **This unique feature opens up a huge range of business model concepts.**

Supported by full double blind clinical studies, the Strawberry inch loss results are unrivalled by any other non invasive procedure. The clinical studies proved a 95% success rate with the results now having been safely enjoyed in over 30 countries and by millions of people.

Non invasive treatments are very much the focus of the world today. The Strawberry inch loss treatments are 100% painless and with results achieved from the very first treatment making it possible to guarantee the results. The treatments are very popular with men and women of all ages wanting to lose the inches quickly and safely.

The results speak for themselves...

Typical treatment areas include:

- Stomachs
- Love handles
- Mother's apron
- Inner thighs
- Outer thighs
- Arms
- Buttocks
- Knee fat
- Elbow fat
- Mom "baby belly"
- Pubic mound
- Male chest
- Back fat

Technical Specifications

Strawberry Lift

“Strawberry Lift” Base Unit:

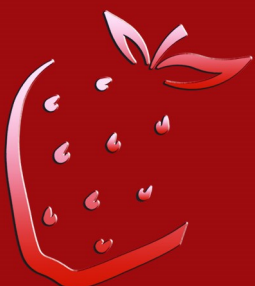

Power Supply:	110-240 V~
Power Consumption:	Max 60W
LCD Display:	7in LCD

Laser Paddles and Probes 635nm 35mW

Output tolerance of Laser Diodes:	<±15% Stated Probe Label Output Power
Measurement of Uncertainty:	5%
Wavelength:	635nm ±15 nm
Power Output:	35 MW
NOHD:	120mm
Beam Divergence:	9 x 38 Degrees Typ
Safety Class:	Class 1

Silent Ultrasound

Heat Temperature:	40-65 degree
Frequency:	2,000Hz
Energy Type:	High Intensity Focused Ultrasound
Heat Temperature:	40-65 degree
Frequency:	2,000Hz
Energy Type:	Focused Ultrasound

Return on Investment

Strawberry Lift treatment ROI.				
Single chin treatment price will be £350 or a course of 4 (paid in advance) £1,000				
Treatments / day:	Your PROFIT per day: each at £250	Your PROFIT per week: 5 days	Your PROFIT per month:	Your PROFIT per year:

Marketing

Successful products rely upon powerful branding and strong marketing. Laser Lipo Ltd has devoted huge resources into achieving this in the U.K and supporting its distributors over the years.

As a part of the Strawberry Team, we have both years of photographic expertise but also a wealth of inhouse video capability. These skills help to capitalise upon the ever expanding social media platforms.

Brochure designs, technical information, patient/client fliers, testimonial statements from patients / clinics and doctors, example before and after images are all available to be downloaded by each distributor to support their marketing, trade shows, promotions. Display posters, banner stand graphics and flier designs are also available.

Laser Lipo Ltd has a library of promotional files and videos that can be edited or translated to save our clients and distributors time and resources.
