

GlideScope GVL Reusable

VIDEO LARYNGOSCOPE

Patients come in all sizes—from small to morbidly obese, and any weight in between. That's why there's a complete line of GlideScope video laryngoscopes.

The GlideScope GVL® consistently provides a clear view, enabling quick intubations.

Proven, practical, and reliable, the GlideScope GVL achieves a Cormack-Lehane Grade I or Grade II view 99 percent of the time.¹

Whether it's in the ED, the OR, or the ICU, patients present in all shapes and sizes. So, it's important to choose an airway device that's right for them: the GlideScope GVL.

Features

- ▶ High-resolution camera for real-time view of the airway and tube placement
- ▶ Reveal™ anti-fog feature, with a rapid heating profile to resist lens fogging
- ▶ Non-glare color monitor with NTSC video output to facilitate recording
- ▶ Unique blade angulation
- ▶ Available in 3 sizes (small to morbidly obese patients)
- ▶ Operational in seconds
- ▶ Easy to use, easy to teach

Available sizes

**A consistently clear view,
enabling quick intubations.**

GLIDESCOPE®
Video Laryngoscopes
Designed for 1st Pass Success

GlideScope GVL Reusable

VIDEO LARYNGOSCOPE

Applications

- First-use intubations, replacing direct laryngoscopy
- Bariatric procedures (GVL® 4 and 5)
- Normal or restricted oropharyngeal views
- Trauma airways; excellent when dealing with blood and secretions in the airway
- Nasal tracheal intubation
- Video-guided tube exchange in the ICU
- Teaching airway anatomy

System Components

- Non-glare color monitor
- Reusable GVL in a choice of 3 sizes
- Choice of mobile stand, IV pole mount, or hard-shell case
- GlideRite® Rigid Stylet
- User's Manual and Quick Reference Cards
- 1-year warranty
