BETTER + BETTER

*VetScan*  
**VSpro**

### On-Site Specialty Analyzer

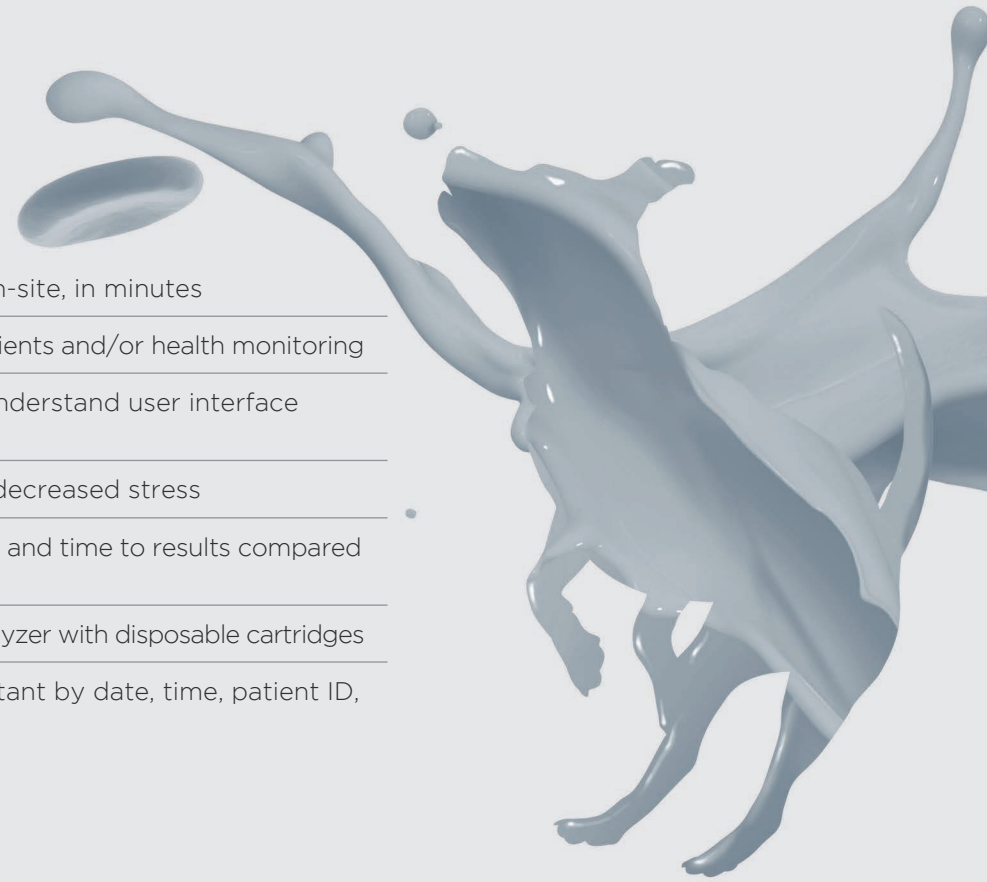

The VetScan VSpro is a state-of-the-art specialty analyzer that offers a growing test menu useful to veterinarians of any specialty. The PT/aPTT and fibrinogen tests currently offered on the VetScan VSpro deliver uncompromising accuracy from a small sample size with an amazingly simple and intuitive user interface, making it ideal for veterinary practices, research laboratories and pharmaceutical and biotech companies.

## Features

- On-site specialty analyzer
- Rapid turnaround time
- Ease of use
- Small sample size (<100  $\mu$ L)
- Cost effective
- Low maintenance
- Stores 1,000 test results

## Benefits

- Results available when needed; on-site, in minutes
- Especially important for critical patients and/or health monitoring
- Minimal hands-on time, easy-to-understand user interface (similar to the VetScan VS2)
- Less blood needed from patient, decreased stress
- Save on cost per test, maintenance and time to results compared with other methods
- No maintenance, self-contained analyzer with disposable cartridges
- Recall and search results in an instant by date, time, patient ID, patient name or sample ID

## Simple Operation

- 1 Insert cartridge and enter patient information.

- 2 Add sample to cartridge.

- 3 Read results.

“We perform routine PT and aPTT testing on all patients likely to undergo any oral surgical procedure with the VetScan VSpro. The ability to perform both tests on a small blood volume provides us with tremendous peace of mind regarding the coagulation status of all our patients. Our VSpro Analyzer has been a tremendous asset to the practice.”

*Jan Bellows, DVM  
Hometown Animal Hospital, Weston, FL*

## Coagulation Testing

**The paradigm of presurgical blood work is changing to include routine coagulation testing.**

The VetScan VSpro Specialty Analyzer offers precise, accurate PT and aPTT results from a single drop of citrated whole blood in minutes prior to surgery. The VSpro assists in the diagnosis and evaluation of suspected bleeding disorders, toxicity/poisoning, evaluation of disseminated intravascular coagulation (DIC), hepatic disease and monitoring therapy and progression of disease states.

The VetScan VSpro offers a combination assay (PT and aPTT) for canine and feline coagulation testing.

### Features

- Combination cartridge
- Rapid turnaround time
- Ease of use
- Quantitative
- Low cost per test
- Uses citrated whole blood

### Benefits

- Single cartridge provides PT and aPTT for a better clinical picture
- Help obtain diagnosis and begin treatment faster
- Decrease user error and frustration from sample prep and using more than one cartridge
- Provides accurate quantitative results comparable to a reference laboratory
- Low cost per test will improve compliance and provide ability to incorporate into presurgical protocols at a reasonable cost
- No need to spin down

“The VetScan VSpro Fibrinogen Test is easy to use and inexpensive. It provides accurate fibrinogen concentrations in horses to allow diagnosis and monitoring during treatment of infectious and inflammatory diseases.”

*Kira Epstein, DVM, DACVS  
Associate Professor, Large Animal Medicine  
and Surgery, University of Georgia, Athens, GA*

## Fibrinogen Testing

**The VetScan VSpro Specialty Analyzer delivers lab-quality results in your office or barn-side.**

Get rapid, automated fibrinogen testing without the hassles, delays and costs associated with the “old manual protocol” of testing or using commercial lab services.

### Features

- Accurate results
- Cost effective
- Quantitative
- Ease of use
- Turnaround time

### Benefits

- Accurate quantitative results allow serial testing, which provides visibility to smaller changes in fibrinogen levels
- Save on cost per test, time and maintenance when it comes to sending out or using another point-of-care analyzer
- Accurate quantitative results provide the ability to perform serial testing to effectively monitor treatment and the response to therapy
- Decrease user error and frustration compared with running fibrinogen with manual heat precipitation
- Help obtain diagnosis and begin treatment faster compared with send-out labs

Validated for equine only.

## VetScan VSpro

### Automated, Easy to Use, Portable with Multiple Uses

For more information on the VetScan VSpro, please contact your Abaxis Representative at 800.822.2947, email us at [vetscan@abaxis.com](mailto:vetscan@abaxis.com) or click [www.abaxis.com/veterinary](http://www.abaxis.com/veterinary).

Abaxis is your total on-site laboratory partner, offering the comprehensive and innovative VetScan line of diagnostic instruments and individual tests. The VetScan name has become synonymous with convenience, ease of use and cost-effectiveness, delivering on our promise of speed, accuracy and reliability. It's not just better technology. It's a better way.
