## How To Send Your Device:

Bring your device (unpackaged) to any UPS Store® for courtesy packaging and drop-off to enter return transit. We'll reimburse the packing costs as indicated in the return confirmation email you received.

Scan to find your nearest UPS Store location:

\* UPS Store locations are independently owned franchises

Print the prepaid label at the left and bring with the device.

Present this label to a UPS Store® associate and request packing services for safe transit of your fragile device.

**NOTE: The return of your medical device will require critical packaging to prevent trauma or damage as a result of transit vibrations. Failure to adequately package your device could result in further delays. Devices used for biohazardous procedures or tests should be free of fluid or other materials that may pose a hazard.**
