

The **Conmed BiCap III** is an electrosurgical unit that allows you to cut/coagulate, dissect, and fulgurate with a more consistent power. The BiCap ESU incorporates Conmed's Dynamic tee-once technology, which reacts to different tissues impedances in less than 1 millisecond ensuring consistent delivery of power and clinical effect while minimizing surrounding tissue damage.

Features

- Front panel volume control.
- Automatic Programming option restores the BiCap's last settings used.
- Pulse Cut Mode provides precise energy bursts for critical dissections.
- Easy to set up.
- Compact size.
- Less than 1 millisecond reaction time.
- ESUm mono and bipolar
- 200W power
- Dynamic response technology reacts to different tissue impedances ensuring a consistent delivery of power and clinical effect while minimizing surrounding tissue damage.

Cutting Modes

- Pure cut
- Coag
- Blend cut
- Bipolar
- Pulse cut

Specifications

Dimensions

Height: 6 in (15.4 cm)
Width: 13 in (33 cm)
Depth: 18 in (45.7 cm)
Weight: 14.65 lbs (6.65 kg)

General

Modes: Pure Cut, Blend Cut, Pulse Cut, Coag, and Bipolar.
Output Control System: Dynamic response.
Previous Memory Setting: Yes.
Contact Quality Monitoring System: ARM.
Duty Cycle: 15 seconds on, 30 seconds off.
Technology: Isolated RF Output.
CQM Range: 10 - 150 CE[©] / 30%.
Self Diagnosis: Yes.
