## Dräger Emergency Response Kits

### DRÄGER CMS EMERGENCY RESPONSE KIT

Put the simplicity of the Dräger CMS to work for you in your emergency response procedures. The Dräger CMS Emergency Response Kit contains the Dräger CMS Analyzer, the appropriate accessories, and a selection of 10 different Chips for response to HazMat or other situations.

Put the capability of several gas detection monitors in your hands without all of the worries. The Dräger CMS is as easy to use as 1-2-3, all Dräger Chips use the exact same procedure. The Chips never need calibration, and the Analyzer does not require battery charging. All of the needed accessories are placed in one rugged carrying case, ready to go at a moments notice.

Use our standard selection of Chips, or create your own Emergency Response Kit selecting from the over 50 CMS Chips currently available.

### GASES MEASURED

Ammonia, Carbon Dioxide, Carbon Monoxide, Chlorine, Hydrochloric Acid, Hydrogen Sulfide, Nitrous Gases, Perchloroethylene, Petroleum Hydrocarbons, and Toluene.

### DRÄGER CMS EMERGENCY RESPONSE KIT ORDER INFORMATION

Dräger CMS Emergency Response Kit	40 55 711
Dräger CMS Emergency Response Kit (without Chips)	40 55 976

### DRÄGER HAZMAT SIMULTEST KIT

Designed primarily for the municipal fire service and other emergency responders, this kit quickly identifies and quantifies a wide range of chemical substances in less than 5 minutes using the Dräger Simultest Sets. The Dräger HazMat Simultest Kit includes three Simultest Sets for measuring 15 different Organic and Inorganic chemicals and/or chemical families. Broad scale measurement and identification is as easy as using Set I, II and III.

The Dräger HazMat Simultest Kit comes complete with a Dräger accuro® Pump, 10 Simultest Sets, Test Set Adapter and Tube Openers, full color laminated instruction sheets, and an Air Current Kit together in a rugged Pelican® case.

### GASES MEASURED

Acid Gases, Basic Gases, Carbon Monoxide, Hydrocyanic Acid, Nitrous Gases, Phosphine, Chlorine, Hydrogen Sulfide, Phosgene, Sulfur Dioxide, Aliphatics, Aromatics, Alcohols, Ketones and Chlorinated Hydrocarbons

### DRÄGER SIMULTEST KIT ORDER INFORMATION

Dräger HazMat Simultest Kit	40 56 098
Dräger HazMat Simultest Kit (without Dräger accuro® Pump)	40 56 447
Dräger Simultaneous Test Set I (Inorganic Gases)	81 01 735
Dräger Simultaneous Test Set II (Inorganic Gases)	81 01 736
Dräger Simultaneous Test Set III (Organic Vapors)	81 01 770

### DRÄGER CLAN LAB SIMULTEST KIT

The illegal manufacture of methamphetamine is a serious problem in North America. Dräger has developed a Simultest Set with detector tubes that quickly confirm the presence of chemicals commonly associated with three principal methods of methamphetamine production. This allows law enforcement and first responder personnel to make fast decisions on the need for respiratory protection.

The Dräger Clan Lab Simultest Kit includes the accuro® Pump, Test Set Adapter and Opener, quick reference laminated instruction sheet and 5 Clan Lab Simultest Sets in a Pelican Case.

### GASES MEASURED

Ammonia, Hydrochloric Acid, Iodine, Phosgene and Phosphine

Dräger Clan Lab Simultaneous Test Set	81 03 310

### CIVIL DEFENSE SIMULTEST (CDS) KIT

Are you prepared to respond to a terrorist attack involving the use of chemical weapons? In today's world, immediate and accurate detection of toxic chemicals is crucial. The Dräger CDS Kit uses specially developed Dräger-Tubes® (the same tubes used by NATO forces) in a quick and easy to use kit. Two Civil Defense Simultest Sets measure a wide range of chemical substances including nerve, blood, lung, and blister agents.

Dräger-Tubes® have been proven by Aberdeen Proving Grounds to be more accurate, more specific and more reliable than PID and FID devices in detecting chemical warfare agents. The CDS Kit requires no calibration, no battery charges or changes, and is extremely simple to use.

### GASES MEASURED

Chlorine, Hydrocyanic Acid, Phosgene, Cyanogen Chloride, Organic Arsenic Compounds and Arsine (e.g. Lewisite), Nerve Agents (G agents and VX) and Blister Agents (Mustard and other Organic Basic Nitrogen Compounds).
