

RAMVAC[®] Vacuums

Energy efficient
RAMVAC motors and
rotary vane pumps
run at a minimum
of 50% less BTUs
than competitive
technology.*

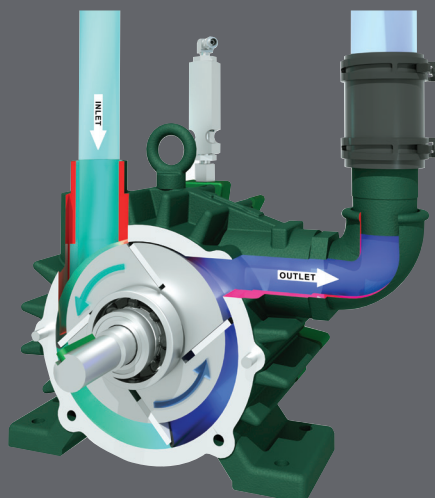

Bulldog® QT

Rest easy knowing that the Bulldog QT with a 10-year pump limited warranty, will run consistently and efficiently for years to come. Support up to 4 users to meet your specific requirements.

Bison®

For the power you need in multi-doctor practices, Bison Vacuum Systems are your best choice. Select from four models supporting up to 12 users to meet your specific requirements.

Built with Rotary Vane Pump Technology

RAMVAC vacuums systems are built with rotary vane pumps. Rotary vane pumps require minimal maintenance but are engineered to outlast the service life of non-lubricated systems. The design of a rotary vane pump ensures consistent vacuum performance even as additional HVEs are opened.

*As noted in user manuals.

RAMVAC System Kits

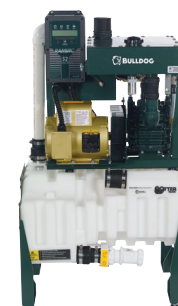

Each kit includes a vacuum, tank, and Slugbuster™ starter kit.
All Bison® kits include a platform as well.

RAMVAC Item#	Users	Vacuum & Tank
BDT4	4	Bulldog QT & 15 Gallon Tank
B3T5	5	Bison 3 & 15 Gallon Tank
B5T7	7	Bison 5 & 15 Gallon Tank
B5T7-3	7	Bison 5 & 15 Gallon Tank, 3 Phase, 230 volt
B5T7-3-460	7	Bison 5 & 15 Gallon Tank, 3 Phase, 460 volt
B7T10	10	Bison 7 & 15 Gallon Tank
B7T10-3	10	Bison 7 & 15 Gallon Tank, 3 Phase, 230 volt
B7T10-3-460	10	Bison 7 & 15 Gallon Tank, 3 Phase, 460 volt
B9T12-3	12	Bison 9 & 30 Gallon Tank, 3 Phase, 230 volt
B9T12-3-460	12	Bison 9 & 30 Gallon Tank, 3 Phase, 460 volt

Bison alongside 50
gallon cylindrical tank

Vacuum Features

- 100% water free operation
- 10 year pump limited warranty
- Easy and fast annual maintenance*
- Complete System is UL 2601-1 Listed

OWL Touch

S2 controls integrate with the OWL Touch allowing communication between multiple vacuum configurations without costly vacuum equalizers or MPC's.

*1 year equals about 2,000 hours of operation. Bulldog QT's S2 controls track cumulative run hours and will display maintenance reminders.

Badger™ LF

The Badger LF LubeFree dry vacuum system provides consistent power in the operatory. Worry-free performance and simplicity.

Easily monitor vacuum gauge

Compact design with robust pump

Belt is easily accessible for routine maintenance

Badger LF Features

- Open frame design means quick maintenance and less down time
- Connects to most pre-existing plumbing, making an easy switch from your old wet-vac system
- Integrated pump, tank and control unit in one compact footprint

Badger LF Specifications

Product	Badger LF2
Part No.	BADGLF2
Users	4
Voltage	208-230 VAC, Single Phase
Tank Size	5 Gallon
Full Load	6.7 A
Horsepower	1.5 HP
Dimension	24.7" W x 18" D x 23.25" H
