SERIES

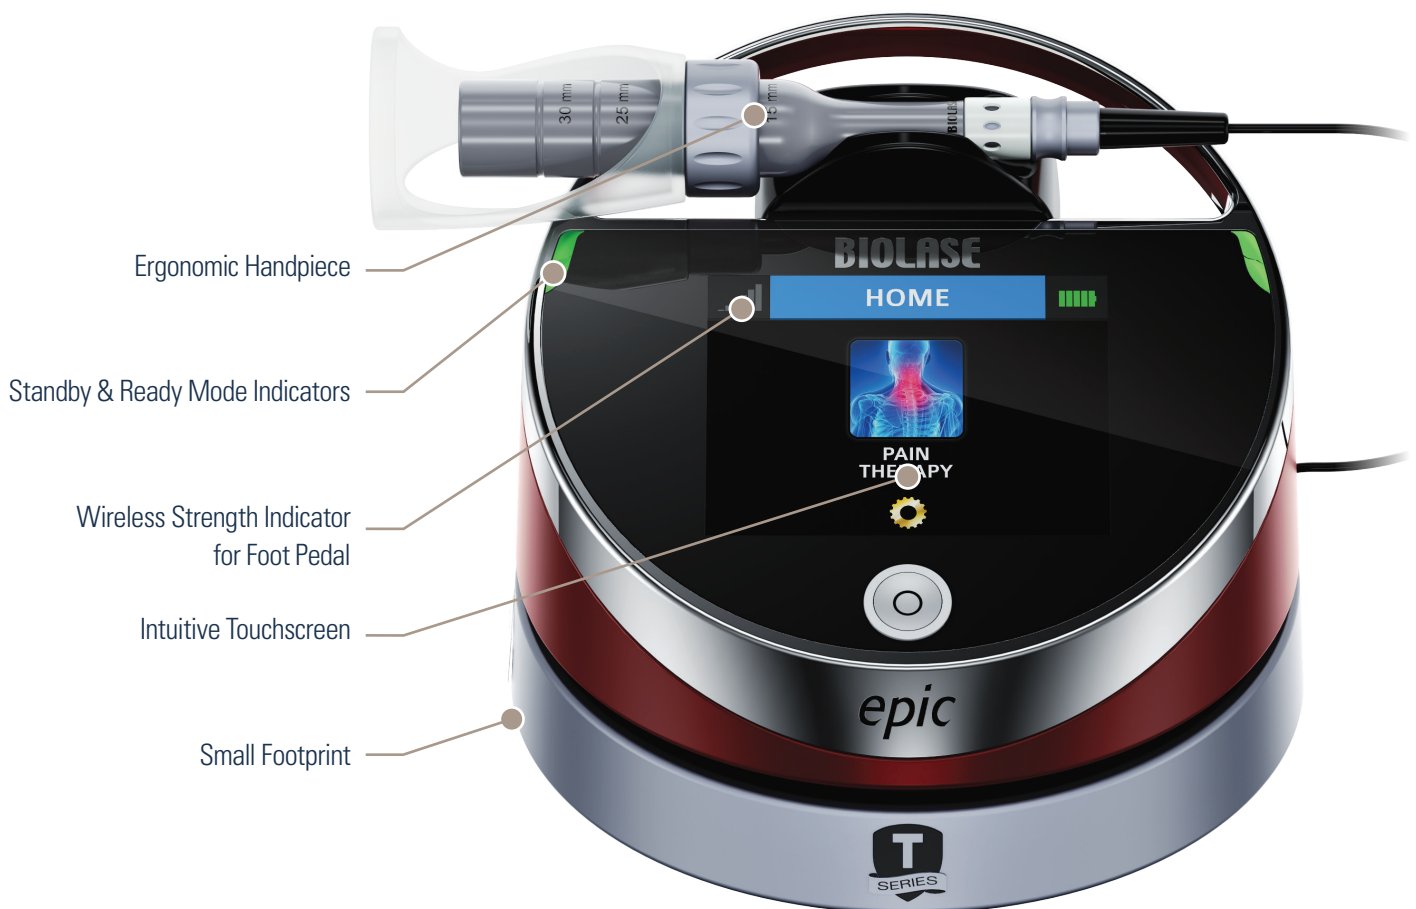

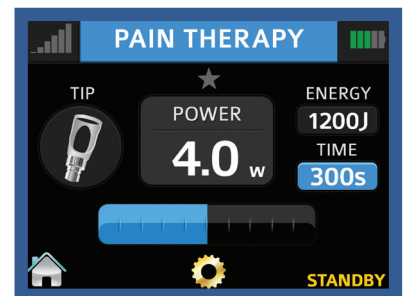

PAIN THERAPY LASER

**BIOLASE**®

# The Next Generation of Pain Therapy

The Epic T-Series diode laser is a versatile pain therapy treatment powerhouse; a full 10 watt laser in a compact footprint. Using a vivid touch-screen interface, accessing treatments is as simple as pressing a button. Combined with ease of use, sleek design and affordability, Epic T-Series delivers an immediate and effective level of patient care.

- Competitively priced to maximize ROI.
- Powerful Li-Ion battery operated to ensure hours of use.
- Less than 3 pounds with no power cords or footswitch cables to easily transition between treatment areas.
- Intuitive graphical interface simplifies any learning curve.
- Manufactured in the USA on a reliable diode laser platform for consistent, superior product quality.

REDUCE PAIN. ATTRACT PATIENTS. GROW YOUR PRACTICE.

# Provide State-of-the-Art Clinical Care

## EPIC T-SERIES BENEFITS YOUR PRACTICE AND YOUR PATIENTS

Give your practice an edge and the convenience your patients are looking for:

- Deliver a new type of patient experience
- Provide treatment in as little as ten minutes
- Generate new revenue
- Minimal space and overhead required to operate
- Increase referrals with technologically advanced care

## NON-INVASIVE PAIN MANAGEMENT

The Epic T-Series provides a therapeutic and non-invasive way to treat pain, working as a topical heating device to temporarily increase your blood circulation. It is effective for chronic and acute musculoskeletal conditions including back and neck pain, injuries from accidents, and athletic injuries to muscles and joints, through temporary:

- Relaxation of muscles
- Relaxation of muscle spasm
- Relief of minor muscle pain
- Relief of joint stiffness
- Relief of minor arthritis pain
- Relief of minor sprains and strains
- Relief of minor muscular back pain

## EVEN DISTRIBUTION FOR OPTIMAL RESULTS

Epic T-Series' proprietary Deep Tissue Handpiece (DTHP) is able to control important parameters such as spot size and power intensity to ensure an equal diffusion of energy over the entire treatment area for optimal results.

Adjustable  
Deep Tissue Handpiece  
for Pain Therapy

REDUCE PAIN. ATTRACT PATIENTS. GROW YOUR PRACTICE.

## Epic T-Series Accessories

### EQUIPPED FOR SUCCESS

The Epic T-Series comes with screen protectors, multiple laser safety glasses, a pain therapy handpiece with protective coverings, and a wireless foot pedal so that you can immediately start treating on day one.

### ABOUT BIOLASE

Headquartered in Irvine, CA, BIOLASE, Inc. is redefining surgery in medicine. Founded in 1986, BIOLASE has over 25,000 lasers in use today. Since 2009, BIOLASE has been perfecting its unique 940nm wavelength diode laser technology for use in pain management. BIOLASE has worked closely with leading laser chiropractors and clinical researchers to develop and engineer the ergonomics, features and performance that meet the specific needs of chiropractic, sports medicine practitioners, orthopedics and pain management centers.
