

AMD Picasso Laser

With the launch of the Picasso Laser in 2009, the dental laser industry was forever changed. The Picasso series has been loved, celebrated and endorsed by clinicians, universities, hospitals, dental clinics, and patients around the world.

AMD Lasers mission is simple; provide dental diode lasers at affordable prices without compromising quality and with the Picasso Laser, they've done just that!

The AMD Picasso range of lasers offer 3-7 watts of power at the tip, multi-tip technology allowing you the freedom to switch between a range of pre-cleaved tips in a range of lengths, suitable for most soft tissue and endo procedures.

Picasso Plus

Picasso Lite

Your choice. Your laser.

The award winning Picasso laser technology offers unprecedented versatility performing a wide variety of soft-tissue and periodontal procedures at an ultra-affordable price point.

Plus

Picasso Clario

Picasso Plus

With the launch of the Picasso Laser in 2009, the dental laser industry was forever changed. The Picasso series has been loved, celebrated and endorsed by clinicians, universities, hospitals, dental clinics, and patients around the world.

The Picasso Plus is a multi-functional soft tissue diode laser that offers comprehensive clinical results in surgical procedures, periodontal therapy and bleaching.

Picasso Plus offers the complete laser solution for dentists who want the flexibility to integrate laser technology throughout their practice.

The Picasso's innovative design, 7 watts of power, 8 programmable presets, color touch screen, multi-lingual menu, option of disposable tip system or strippable fiber, wireless foot control, standard one-year warranty, and low annual operating cost makes Picasso Plus the complete laser solution for dentists.

Calibration

The Clario, Picasso Plus, and Picasso Lite Plus Dental Laser units are factory calibrated upon sale. For accurate treatment results, the unit(s) should be calibrated every 12 months following the date of purchase. The calibration procedure requires specialised equipment and technical expertise. Improper calibration could lead to instrument damage and failure to calibrate the laser.

What's included in the price:

Pickup of ONE laser unit.
Calibration of ONE laser unit.
Cleaning of ONE laser unit.
Return shipping of ONE laser unit.
